

Last Changes to SYNT-D-26-00214

- anonymization has been reversed some references to my previous works added
- Acknowledgements added
- Corrections (typos and infelicities):
 - Apostrophe and Dash consistency,
 - changed "an expression that he uses to denote massive charged particles" to "a term that he uses..."
 - "Real and Apparent. Einstein's Last Remarks" to use a colon instead of a period, matching the "Testing the New Kinematics: Stark's..." title convention used elsewhere.
